dated 16 March 1992 from the Officer-in-Charge, Office of the
Executive Delegate, addressed to the Chairman and originally
circulated under the "no-objection" procedure on 26 March 1992. The
letter contained a request for approval of two proposed projects
for emergency control of rinderpest, involving the importation to
Iraq of vaccines and related materials and equipment for the
rehabilitation of vaccine production facilities. Objection had been
raised, in particular, to the rehabilitation of vaccine production
facilities.]

TXT[His Government had no problem with the basic thrust of the
request contained in document S/AC.25/1992/COMM.262; it supported
a properly controlled country-wide programme of vaccination and
agreed about the urgency of beginning the campaign. However, it had
serious problems with the rehabilitation of vaccine production
facilities in Iraq because of possible dual use. The importation of
vaccines was needed immediately, but the rehabilitation of the
production facilities would not help to meet the urgent
requirements that existed.]
