ITEM[Matters carried over from the previous meeting]

TXT[Responding to requests for information made at the previous meeting, said that the terms of the "gentleman's agreement" reached by the Committee in March 1992 could be found in summary record

S/AC.25/SR.66. In reply to queries about Committee practice

concerning certain items, he pointed out that since 1991, there had

been 21 requests for fabrics, textiles and the like which one or

more members of the Committee had objected to. The Committee,

however, had also approved a number of similar requests that had

been of a demonstrably humanitarian nature, such as those relating

to cotton fabric for school uniforms and textiles to be used in a

project for handicapped persons. In that connection, he informed

the Committee that the hold which had been placed at the previous

meeting on the Jordanian request for the export to Iraq of black-

coloured textile piece goods (S/AC.25/1993/COMM.45) had been

removed and a letter of approval had been sent to Jordan.]

ITEM[Matters carried over from the previous meeting]

TXT[With regard to the request at the 86th meeting for a clarification concerning wood sheets and plywood, he understood that the Committee records contained no reference to "wood sheet" prior to the request discussed at the 86th meeting. At the 85th meeting, held on 12 January 1993, five requests for plywood export authorization had been discussed, all of which had drawn objections. One request (S/AC.25/1992/COMM.1724) had indicated that the teak-faced plywood veneer in question was to be used for patient beds and hospital furniture. That request had elicited no objection and had been duly authorized in a note dated 5 January 1993 (S/AC.25/1993/NOTE/2).]
